

Proudly Representing These Leading Edge Machine Tool Builders:

**SORALUCE****MILLTRONICS®**

Who We Are

EMEC has been serving Canadian manufacturers for over 28 years and we have earned the respect of our customers and supplier partners due to our great team of dedicated professionals. They are all experts in their fields and they all take pride in providing our customers the highest level of service possible.

EMEC's corporate culture is defined by a simple set of corporate values – Trust, Care, Innovation and Pride and these reflect how we interact with our customers, suppliers and colleagues every day.

Why Choose Us

ROCK SOLID STABILITY

29 years in business with over 3,500 machines successfully installed across our territories.

CUSTOMER SERVICE

With customer satisfaction as our #1 priority, EMEC Machine Tools has developed a reputation as a reliable partner.

TECHNICAL SUPPORT

Along with the finest CNC machine tools in the business we offer industry leading support and services with our factory trained team of 6 application engineers and 12 service technicians.

SHOWROOM FACILITY

Our showrooms in Mississauga & Montreal provide customers with training, machine demonstrations and educational seminars.

Services & Solutions

Engineering Solutions

- Process Evaluation
- Turnkey
- Training & Support
- Component & Tool Verification
- System & Machine Monitoring
- Cycle Time Analysis

Service Solutions

- Preventive Maintenance
- Laser Alignment
- Ball Bar Testing
- Operator Maintenance Training
- 24/7 After Hours Emergency Service

Parts Solutions

- Replacement Parts
- OEM Exchange & Repair Programs

Financing Solutions

- New Equipment Financing
- Flexible Payment Terms
- Market Competitive Rates
- Capital Leases with Fixed Purchase Options
