# SS327-III-5AX

## CNC PRECISION AUTOMATIC LATHE

- 32mm Capacity Chucker Convertible Swissturn
- B Axis Tool Spindle for Angular Live Work or 5-Axis Milling
- Main Side Gang with 7 Turning Tools, 8 Driven Tools (2 Modular), and 4 Id Tool Positions
- Sub Side Y Axis with 8 Driven Tool Positions (4 Standard), up to 36 Total Tools Available
- Oscillation Cutting Capable
- Direct Drive Guide Bushing
- FANUC 31i-B5 CNC Control

## B-AXIS SLIDING HEADSTOCK SWISS TYPE LATHE

### SPEED

- The SS327-III-5AX is chucker convertible with a modular B-axis allowing for the cutting of complex parts, complete in a single setup, while applying the capability for through hole thread whirling or high speed spindles for small surfacing end mills.
- The B-axis contains live tools (four front, two rear) which can machine in coordination with the C-axis, delivering the ability to cut precise angles and sculpted contours.
- The overlap capabilities with the Y2 axis and its 8 modular driven tool positions, mean more work is done to reduce your cycle time.

### ACCURACY

- Tsugami has a long-term reputation for machine accuracy. It's all starts with their world-class engineering, incorporating symmetrically designed castings and an "A-frame" design of the gang slide. Utilizing the highest quality, motors, ball screws, rails and bearings assure precise motion control, and unique spindle cooling all work in concert and contribute to repeatable accuracy over the long life of the machine tool.

### RIGIDITY

- Tsugami has the most rigid gang tool post in the industry due to opposing rail slides.
- Built on a heavy duty one piece cast iron base with thermally symmetrical construction, this machine features 0.1 micron axis resolution. A more rigid platform allows higher speeds and feeds.
- For extra peace of mind, the machines, motors, and FANUC controls are covered by an industry leading two-year parts and service warranty.

# ACCESSORIES

Your SS327-III-5AX can be accessorized with various tooling options. Some of these options include:

Back Tool Spindle

Static Adapter

Quick Change Tooling

Back Cross Tool Spindle

B-Axis Thread Whirling Head

Our team can create anything needed to transform your tool zone to fit your part and process.

## NEED SOMETHING CUSTOM?

From the machine Make Ready process, to integrating mechanical and robotic loading and unloading systems, to custom tool creation and spindle repair, IMG is dedicated to supporting all Tsgami users in North America!

# OSCILLATION CUTTING

Oscillation Cutting is a technological breakthrough that oscillates a servo axis to help break chips in tough to cut materials, reduces heat in the cut, while not diminishing tool life.

- Productivity is increased by significantly reducing operator interruption to remove hanging or bird nesting chips.
- Easy to program by special G code
- Oscillation parameters can be changed easily within the program for machining multiple features with multiple tools.
- Can be used for many machining operations including OD turning, drilling, boring, grooving, cutoff, circular interpolation, and most FANUC canned cycles.

## ABILE SOFTWARE

- Developed by Tsugami, Abile is capable of programming moderately complex machined parts. Abile incorporates all basic machines featured and several material types with predetermined feed rates.
- Abile allows first time users to quickly become proficient with Swiss processing despite having limited knowledge. Abile comes free with your machine purchase and requires no license fees, maintenance agreements, or seat limitations.
- Abile allows you to generate a 2 or 3-path part program, complete, with specific and editable codes in standard FANUC G Code format. Abile automatically generates machine process and provides component run times.

Since 1978, Tsugami America (formerly known as Tsugami/Rem Sales) has been the exclusive source for Precision Tsugami CNC machine tools in North America. Headquartered in Windsor, CT, Tsugami America provides machine tools and engineering expertise through an extensive network of authorized distributors and technical centers. Technical support and customer service are available throughout North America. Our distributors' trained service personnel provide technical support throughout the long life-cycle of our Tsugami machine tools, and work hand-in-hand with Tsugami America's engineers to deliver common-sense solutions to everyday problems.

Our application engineers help customers tackle and solve the toughest high-precision manufacturing challenges, on-time and on-budget. We have a 40-year history and reputation of serving the needs of small parts manufacturers in North America with the highest level of expertise and customer care. Our industry-respected, knowledgeable staff is comprised of both long-time employees and fresh faces all who share a commitment to provide you, our customers, with the competitive advantage to "do more with less" every day.
